Mannequin Mayhem

Sierra County's art community came together to support a first fundraiser to benefit Rio Bravo's Ice House, which, when restored, will be used for community events and exhibit space. Conceptualized and organized by artist Ann Sage, with the support of Eduardo Alicea, owner of RioBravoFineArt Gallery, 44 artists each chose a mannequin and decorated it on a theme.

Mannequin Mayhem art show at Rio Bravo introduced the completed mannequins to the community during Art Hop. A scavenger hunt followed when they were displayed around town. An auction brought in funding to launch the Ice House renovation. Mannequin Mayhem--a rousing success!

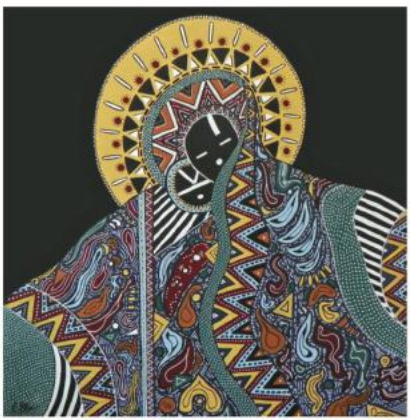
Carol Plec: A Tribute

Excerpted from an article by Susan A Christie

Carol Lynne Reddeman Plec (1943-2021) was a farmer, educator, wife and mother, ad exec and accomplished artist. She was born on a dairy farm in Chelsea, Michigan. Her experiences growing up working on the farm and attending a one-room schoolhouse greatly influenced the way she approached life and art. Carol won a scholarship to Michigan State University. She sketched barns and birds and received statewide recognition for her fine dressmaking skills. She later turned her precise sewing skills to designing and hand sewing decorative wall hanging quilts.

After graduating, Carol taught high school, where she met and married Robert Plec. They raised two children. After turning from teaching to a career in advertising doing design concepts, she met and was mentored by talented writers and artists. As they neared retirement, the Plecs found their dream home in Elephant Butte, NM.

Quilted wallhanging



Black Madonna painting

The supportive arts community in Truth or Consequences enabled Carol to hone her talents as a painter, quilter/fiber artist. Travels around NM, as well as to London, Taiwan and Italy, inspired her work. She exhibited her work in TorC and Santa Fe. Carol painted in oils, charcoal, pastels and finally acrylics, depicting animals, birds, flowers and places she'd traveled to. Carol loved to try different ideas in design techniques.

Haiku For the Planet

Why's honey so sweet?
it's made of blooms visited
beauty condensed

Honey's not just from flowers
bees and bursting figs -
result? fig honey

Thank you bees: for this,
your faithful work, deserves our
work: to save the Earth...
